6 island tips

1. Book early: small planes, August ferries and rooms sell out months ahead.
2. The meltemi wind blows hardest in July & August: check which coast is sheltered on your island.
3. Carry some cash: many small tavernas prefer it.
4. Cover knees and shoulders for monasteries.
5. Start hikes and caldera walks early: there is almost no shade.
6. Always check current ferry schedules: they change by season.
